### Message from Principal:

*Sambhram Institute of Medical Sciences & Research is already geared up and completed all required facilities for providing world class medical education and excellent research activities to the health education aspirants. The eminent and experienced teaching faculties, technologically high standard laboratories with practical facilities, spacious library with more than 11000 medical books and many latest foreign and Indian journals are available for references, along with e-learning facilities will make your academics result oriented.*

*Accommodation at quarters for comfortable stay for both teaching and non-teaching staff are available inside the campus. Hostel accommodations with dining are available for residents and nurses. Separate hostels with canteen services are kept ready for the students inside campus. The accommodation and food organized inside the campus is always much above everyone's expectation.*

*The teaching hospital associated with Sambhram Institute of Medical Sciences & Research mainly focuses on all categories of patients' health care. The services at Sambhram Hospital have been designed exactly for the needs of patients to enhance the quality of care and speedy diagnosis and its treatments. The operation theatres, wards, ICUs, emergency units, investigation labs are equipped with most modern equipments and facilities. The hospital is mainly catering its services to the poor and needy public of KGF and all its nearby villages. The management is aiming to promote the institution as one of the prominent multispecialty hospitals in our country.*

*We always ensure to provide the best health care solutions and high-quality health education to build a healthy and knowledge filled generation.*

Warm Regards,  
**Dr. Venkatesh K R**
